HARD SKILLS

- **Programming Languages :** C, C++, Java, JavaScript, Python
- **Backend Technologies :** PHP (Symfony 7), Java
- **Frontend Technologies :** HTML, CSS, JavaScript, Bootstrap, React Native
- **Databases :** Oracle, MySQL, T-SQL, Neo4j, MongoDB, Cassandra
- **Operating Systems :** Linux, Windows
- **Data & Analysis :** pandas, ETL
- **Tools :** Microsoft Power BI, Microsoft Office
- **AI & Machine Learning**: PyTorch, Scikit-learn, XGBoost, Deep Learning, Predictive Modeling

SOFT SKILLS

- Time Management
- Team Spirit
- Problem Solving
- Autonomy
- Creativity
- Adaptability

LANGUES

- English: Intermediate
- French: Fluent
- Arabic: Fluent

PROFILE

Final-year Computer Engineering student at the Moroccan School of Engineering Sciences (EMSI), specializing in Data and Artificial Intelligence. I am seeking a 6-month graduation internship (PFE) starting in February 2027 in the field of Data Science and AI.I am eager to contribute my skills in machine learning, data engineering, and intelligent systems to impactful research or industry projects.

EDUCATION

2022-Present
- 5tht year, Computer Science and Networks Engineering

2021-2022
- Faculty of Sciences – Biology major

2020-2021
- Baccalaureate in Physical Sciences

ACADEMIC PROJECTS

2022-2023
- Bank management system in C language

2023-2024
- Dental clinic management system in C.
- Smoke detector using Arduino
- Study of astable multivibrator circuit based on bipolar transistors.

2024-2025
- Music playlist management system using PHP and Symfony 7
- Database design and modeling (SQL, Microsoft Power BI, Python)
- Online recruitment platform developed in Django.

2025-2026
- Bibliotheque mobile
- Agentic Knowledge Graph RAG System

EXPÉRIENCE PROFESSIONNELLE

Database & Automation Intern | Forum International Computer Maroc July 2025
- Automated data transfer pipelines from Excel spreadsheets to a centralized database.
- Designed a structured database architecture to secure and organize operational data.
- Implemented validation scripts to ensure data consistency, integrity, and reliability.

Data & Artificial Intelligence Intern | Ciments du Maroc — Casablanca, Morocco Jul 2026 - Sep 2026
- Built an industrial quality prediction system using XGBoost, Random Forest, and ElasticNet.
- Deployed FastAPI backend endpoints and integrated Power BI interactive dashboards for real-time monitoring.

CERTIFICATIONS

- Certificat in Interactivity with JavaScript : https://www.coursera.org/account/accomplishments/verify/IV16ZPC1MM7F
- Certificat in Introduction à la programmation orientée objet (en C++) : https://www.coursera.org/account/accomplishments/verify/IV16ZPC1MM7F
